

St Anthony's Catholic Primary School

“Working, learning and caring together in God’s love”

Special Educational Needs Information Report

St Anthony's Catholic Primary School is a vibrant, diverse and inclusive school. Pupils, parents, staff, governors and a range of other stakeholders work in partnership to ensure high standards of achievement and mutual respect, within a Christian ethos. The school may offer the following range of provision to support children with a range of additional needs due to: **specific learning difficulties (SPLD), moderate learning difficulties (MLD), speech, language and communication needs (SLCN), Autism Spectrum Disorder (ASD); social emotional and mental health difficulties (SEMH); vision impairment (VI); hearing impairment (HI); and physical disabilities (PD)**

The range of support deployed will be tailored to individual need following thorough assessment by internal or external agencies. It is designed to promote pupils working towards becoming independent and resilient learners and should not be seen in isolation.

This Special Educational Needs Information Report has been co-produced with key stakeholders, including pupils, parents/carers, staff and governors. A variety of activities have been used to facilitate this process including SEND parental surveys, sharing Individual Educational Plans with parents and pupils, link SEND Governor visits, pupil progress reviews and staff meetings that review provision.

Assessment, Planning and Review

How can I find out about how well my child is doing?

Ongoing monitoring takes place by class teachers to identify pupils who are not making progress or who have behaviour needs which are affecting their ability to engage in learning activities.

After discussions with key staff and parents, additional support will be put into place to provide enhanced resources and targeted small group and / or individual support to help overcome any difficulties. The views of the pupil or young person about their support will be given consideration at this stage.

This additional support is documented in an individual provision map, Individual Education Plan (IEP) or Pastoral Support Plan (PSP). In consultation with the SENDCO/Headteacher and parents, short term targets are agreed which prioritise key areas of learning or behaviour to address and by which progress can be measured. Where external agencies are involved, their advice and recommendations are included in these support programmes. Actions agreed take into account each pupil's strengths as well as their difficulties.

In some cases teaching assistant support may be allocated. This support is deployed to ensure your child can engage in lessons and wider school activities and to facilitate independent learning to support transition to adulthood.

Formal review meetings are held at least termly. Parents, relevant external agencies and when appropriate, pupils are invited to this review and their contribution is valued. The impact of support offered is considered along with the progress towards targets set. Support arrangements will be updated and revised accordingly. If not involved already, this might include referral to external agencies. The outcomes of these meetings will be formally recorded.

If your child is continuing to have significant difficulties, further external expertise may be requested. Additional funding is available for children who meet the criteria. This can be accessed using the Local Authority process and the guidance in the Banded Funding Criteria. Where this is agreed, a Pupil Resource Agreement will be drawn up and implemented with the school's Educational Psychologist and other professionals where appropriate. Further details about this process will be explained in the LA Local Offer.

Tests and Examinations: Access Arrangements

For some pupils additional arrangements and adjustments can be made to enable them to fully access a range of tests. This might include additional time, rest breaks or the use of a scribe or word processor. The SENDCO will inform you about eligibility and applications for these arrangements. Only tests and assessors authorised by the school and recognised by JCQ can be accepted for access arrangements for public examinations.

Curriculum and Teaching Methods (including groupings and interventions)

How will teaching be adapted to meet the needs of my child?

Teachers are well skilled at adapting teaching to meet the diverse range of needs in each class. Daily planning takes into account individual pupil's needs and requirements. Differentiation is approached in a range of ways to support access and ensure that all pupils can experience success and challenge in their learning.

Grouping arrangements are organised flexibly with opportunities for both ability and mixed setting to maximise learning opportunities for all.

Additional adults are used flexibly to help groups and individual pupils with a long term goal of developing independent learning skills. Monitoring takes place to avoid pupils becoming over reliant and dependent on this adult support.

Transition

How will the school help my child move to a new class / year group or to a different school?

Children and young people with SEN can become particularly anxious about "moving on" so we seek to support successful transition by:

When moving to another school:

We will contact the School SENDCO and share information about special arrangements and support that has been made to help your child achieve their learning goals. We will ensure that all records are passed on as soon as possible.

When moving classes / forms in school:

An information sharing meeting will take place with the new teacher at the end of the summer term. Opportunities to visit the new class / teacher will be provided.

In year 6-7 transition

The SENDCO and/or class teacher will attend the primary/Secondary Transition day meeting to discuss specific need of your child and the nature and level of support which has had the most impact.

In some cases additional multi-agency meetings may be arranged to create a more detailed "transition" plan which may include more visits to the new school and/or additional visits from the new school.

Staffing Expertise

How skilled are staff in meeting the needs of my child?

An ongoing programme of training is in place to ensure that teachers and support staff have appropriate skills and knowledge in areas that will improve their teaching and support of children with SEN. Recent training has covered :

SALT training

Behaviour Management Training and Restorative Justice

Paediatric 1st Aid Training

Asthma and Anaphylaxis Training

ASD training

Safeguarding Training

Our SENDCO actively engages with local opportunities to share best practice and keep abreast of current local and national initiatives and policy to support pupils with SEN.

The school also seeks advice and guidance from local special schools to review, evaluate and develop provision for pupils who have the most complex needs.

We also have staff with specialised expertise and qualifications in school including:

Behaviour Management and Restorative Approaches

Emotional Literacy

Nurturing and Attachment

Safeguarding Children and Young People in Education

National Award for SENDCo Accreditation

EAL Specialist

EYFS Specialist

NVQ 2 &3 Teaching Assistant

Accredited training for pupils who speak English as an additional language

Phonics

Narrative Therapy

MBA Educational Management

MA Special Needs

Maths Specialist

NPQH – Leadership and Management

Specialist Leader In Education – SEND

Accredited Training for Pupils with Autism

Who do I talk to if I am unhappy with my child's support or progress?

In the first instance please speak with the class teacher who will be able to provide information about your child's progress and attainment.

The SENDCo will be able to advise you on specific provision that is in place for your child. The SENDCo may need to make referrals to a range of outside agencies to help your child achieve his/her potential. Referrals will always be done in an open and transparent way following in depth discussion. At St Anthony's we recognise and value the role of parent/carers as your child's first educators.

Complaints

We make every effort to provide excellent provision for all pupils. However, we are aware that things can go wrong resulting in parents/carers feeling that they have a genuine cause for complaint. If this is so, we would wish for the matter to be settled as quickly as possible. The complaints procedure can be obtained on the school's website or from staff at the school's reception desk.

We are continually striving to improve our service. Any helpful suggestions or comments would be much appreciated on an ad hoc basis or when annual parent/carer surveys are completed.
